

lower capilano recreation

We want to know more!

After three years of working hard for you the Lower Capilano Partnership Committee continues building strong community through the networking of agencies, organizations and dedicated citizens. Together we have created an environment of sharing, where programs and services are meeting the needs of people and their neighbourhoods. We want to ensure we are meeting YOUR needs. Now we need your help. Please go to our webpage and fill out our survey to answer questions about how to better serve Lower Capilano neighbourhoods and community. www.northvanrec.com/LowerCap.

You're invited. . .

Lower Capilano Community Gathering

Lower Capilano will be hosting an opportunity for you to get to know your neighbours, celebrate this fantastic community and find out how to get involved as a volunteer. Visit www.northvanrec.com/LowerCap for more information, final dates and location.

Our Commitment to You

The Lower Capilano Partnership Committee has developed a strategic plan to the end of 2011. Three key areas have been identified where attention will be focused.

- Support for families with low income, young or lone parents and opportunities for families to play and learn together
- Revisiting the needs of the community through surveys and focus groups
- Working together to leverage resources and build a volunteer network.

Funding for Lower Cap initiatives is provided by the District of North Vancouver and the North Vancouver Recreation Commission through direct staff support and grants.
